

Welcome at this location!

The globally active Friedhelm Loh Group (F.L.G.) invents, develops and produces customised products and system solutions for industry, commerce and trade.

The Friedhelm Loh Group's companies belong to the top addresses in their respective industries – as inventors and competent producers. They include the world's leading system provider for industrial enclosures, power distribution, climate control and IT infrastructure (Rittal); Europe's number one suppliers of software solutions for mechanical and plant engineering and industry (Eplan and Cideon), as well as integrated manufacturing expertise with state-of-the-art materials – steel, aluminium, and plastics (Stahlo and LKH).

The family-owned company is now active worldwide with 18 production sites and 80 subsidiaries.

Your safety is our joint responsibility.

We request that you familiarise yourself with the following regulations and information.

Employees of external companies are also subject to the regulations on **“Safety, health and environmental requirements for external companies”**.

The companies of the Friedhelm Loh Group

Rittal – The System.

Faster – better – everywhere.

Safety information and code of conduct

1. Traffic regulations

Rail traffic has right of way. The German Road Traffic Code (StVO) applies at F.L.G. sites. The speed limit is 20 km/h. Watch out for industrial trucks. Pedestrians must use footpaths. Traffic accidents must be reported to plant security.

2. Smoking ban, no naked flames

Naked flames, sources of ignition and fires are banned. Smoking is only permitted in designated areas.

3. Alcohol and intoxicant ban

It is forbidden to bring or consume alcoholic drinks or intoxicants on F.L.G. sites. Nobody under the influence of alcohol or other intoxicants is permitted to enter F.L.G. sites.

4. Photography and filming ban

It is forbidden to take photographs or video recordings without permission.

5. Animals

It is forbidden to bring animals with you.

6. Reporting within the company

The commencement and completion of all works must be notified at the company reporting point. The reporting points are marked with accompanying signs.

7. Fire, accidents, traffic accidents, medical emergencies, environmental pollution

Damage must be reported to the site manager. Casualty doctors or nearby hospitals will provide medical assistance. In case of fire, the fire brigade must be notified.

Emergency: internal telephone (0) 112

8. Camera surveillance

Areas under video surveillance are marked with accompanying signs.

9. Electrical devices are banned in areas secured against explosion, as are explosives

It is generally forbidden to take electrical devices, matches or lighters into areas at risk of explosion.

10. Unusual events

If you notice suspicious objects, see a person behaving unusually or witness a crime, please report immediately to plant security.

11. Fire alarm warning inside buildings

Siren emits intermittent alternate beeps. Stay calm. Leave the area via the escape routes signposted. Go to the meeting point.

12. Earphone ban

It is forbidden to wear earphones, particularly for listening to music, at F.L.G. sites unless wearing earphones / ear protection is required for a specific task.

As a general rule, persons without a work assignment and children under the age of 14 are not allowed access to F.L.G. sites. You can consult the regulations listed in the safety information notices posted at the access points.

Caution! Important note!

You can find further F.L.G. safety information and rules of conduct at

<https://www.friedhelm-loh-group.com/safety-information>

It is recommended you read the information and familiarise yourself with the safety notices before entering a F.L.G. site.
